AND HENRY COUNTY NEWS.

OFFICIAL PAPER OF CITY AND CO.

NAPOLEON, OHIO, FEBRUARY 8th, 1894.

It is reported that ex-President

Harrison is to wed the widow of Leland

Stanford.

THE Wilson bill, with the income

tax feature passed the House on Thurs-

day by a vote of 204 to 140. Seventeen

Democrats voted with the Republicans

against the measure.

THERE are thirty-one members in

the State Senate of Ohio, and they

have only twenty-five porters and

pages. Something wrong, they should

increase the latter so that the numbers

would be made even.

It is not necessary for any Democrat

to feel disturbed or even annoyed by

the Republican ranting against Presi-

dent Cleveland. The Democratic ad-

ministration is all right. The very fact

it does not please the Republicans is

proof conclusive that it is right.

THE Ohio Government seems to play

hard luck. Governor Bishop broke up

Governor McKinley went to the wall,

Governor Foster busted and now Gov-

ernor Campbell is in financial trouble

and cannot pay a judgment recently

procured against him. There seems to

be a fatality connected with the office

of Governor of Ohio.

REPRESENTATIVE WINN, of Defi-

ance, proposed an amendment to the

constitution, which provides that the

legislature may submit to a vote of the

people any law of a general nature be-

fore it becomes operative; and, if af-

fected a municipality only, then to

the residents of the city effec-

ted. This is what is known technically

as the referendum method of govern-

ment, which has been in use in Swit-

zerland for some time. We are indebted

to Hon. Frank Meyers for a copy of

the proposed amendment.

LET all Democrats be loyal to their

party and the best interests of the

country. All this hullabaloo against

the Wilson bill is raised by a systemat-

ic effort on the part of Republicans,

Death of a Good Man.

Geo. W. Childs, the Philadelphia philanthropist and publisher, died at his home in Philadelphia after a long illness on the morning of the 3d. Mr. Childs was known throughout the world and his death is a national loss.

George William Childs was born at Baltimore on May 12, 1829. He was educated at private schools in his native city, and even as a schoolboy exhibited a remarkable predilection for business. He was self-supporting when quite a youth, and in his twelfth year he took a position as errand boy in a Baltimore book store at a salary of \$2 per week.

At the age of 13 he entered the navy and passed fifteen months at Norfolk, but the life did not suit him and the next year he went to Philadelphia, where he secured employment in a book store. By the time he was 18 he had saved enough to embark in business for himself, and at 21 he entered the book publishing business, where he made money on several successful books.

On December 3, 1864, he purchased the *Public Ledger*, and soon made that paper, which had hitherto been a losing venture, the leading periodical of Philadelphia.

The Republican Deficiency Debt.

[New York World.]
All Republican organs follow the cue of the *Tribune* in treating the Treasury deficiency and the necessary increase of the public debt as due to "Democratic incompetence."

The best answer to this is supplied by facts which cannot be denied and figures which cannot be impeached.

When the Democrats turned the Government over to the Republicans in March, 1886, there was an available cash balance in the Treasury of \$185,000,000. Nearly \$100,000,000 of this sum was in free gold.

The revenues were then exceeding the expenditures at the rate of \$105,000,000 a year.

When the Democrats received the Government back, in March last, the surplus in the Treasury had disappeared. The gold reserve was patched up by Mr. Foster's device of borrowing of New York bankers. The \$98,000,000 of free gold above the \$100,000,000 reserve had dwindled to \$890,000.

The country gained in gold imports during President Cleveland's first term, \$64,772,000. Its net loss during President Harrison's term was \$122,524,000. The annual surplus followed the accumulated surplus under the Harrison-Reed-McKinley rule. The Billion Dollar Congress cut off \$60,000,000 of revenue, while raising the tariff taxes in every schedule save two. It added \$60,000,000 to the pension, increasing it in four years more than the total cost of the list in 1880, fifteen years after the close of the war. It added \$70,000,000 to the regular annual appropriations.

It looted the treasury with one hand and threw away revenue with the other, for the express purpose of preventing such a reduction of the tariff as the people ordered in 1890 and again in 1892.

Every dollar of the deficiency that exists or is in sight is due to Republican legislation and Republican extravagance. The new bond issue will be known in history as the Republican Deficiency Debt.

Now is the Time.

The benefit to be derived from a good medicine in early spring is undoubted, but many people neglect taking any until the warmer weather, when they will like a tender flower in a hot sun. Something must be done to purify the blood, overcome that tired feeling and give necessary strength. Vacation is earnestly longed for, but many weeks, perhaps months, must elapse before rest can be indulged in. To impart strength, and to give a feeling of health and vigor through the system, there is nothing equal to Hood's Sarsaparilla. It seems perfectly adapted to overcome that prostration caused by change of season, climate or life, and while it tones and sustains the system it purifies and renovates the blood.

THE Ohio Government seems to play hard luck. Governor Bishop broke up Governor McKinley went to the wall, Governor Foster busted and now Governor Campbell is in financial trouble and cannot pay a judgment recently procured against him. There seems to be a fatality connected with the office of Governor of Ohio.

REPRESENTATIVE WINN, of Defiance, proposed an amendment to the constitution, which provides that the legislature may submit to a vote of the people any law of a general nature before it becomes operative; and, if affected a municipality only, then to the residents of the city effected. This is what is known technically as the referendum method of government, which has been in use in Switzerland for some time. We are indebted to Hon. Frank Meyers for a copy of the proposed amendment.

LET all Democrats be loyal to their party and the best interests of the country. All this hullabaloo against the Wilson bill is raised by a systematic effort on the part of Republicans, mostly by those specially favored, who are howling because the Democrats propose to legislate in the interests of the whole people. The turmoil is all raised to influence a Congress which was elected on a tariff reform movement. Don't be deceived by Republican yawning, but be Democrats and turn not aside for the protests of advocates and beneficiaries of an unjust tariff.

THE most important measure in the Legislature, Friday, was a bill to make railroad companies liable for all losses by fires originating on lands belonging to the railroad companies and caused by the operation of the road. It provides that the existence of the fire shall be prima facie evidence that the same was caused by the railroad company, and further requires all attorneys' fees and other expenses of the litigation to be paid by the companies. It is a measure of special interest to farmers who live near railroads, and will doubtless be fought by the railroad people bitterly.

RHEUMATISM CURED IN A DAY.—"Mystic Cure" for Rheumatism and Neuralgia, radically cures in 1 to 3 days. Its action upon the system is remarkable and mysterious. It removes at once the cause and the disease immediately disappears. The first dose greatly benefits, 75 cents. Sold by D. J. Humphrey, Druggist, Napoleon.

MRS. GERMAN MILLER.

Suffered Eight Long Years From Nervousness and Dyspepsia.

COULDN'T EAT OR SLEEP.

Mrs. MILLER SAYS: "I had been troubled for eight years with stomach and heart difficulties. I lived mostly on milk, as everything I ate distressed me. My nerves and liver were in a terrible state, was so run down and nervous that at times I could neither sleep nor eat. I was treated by the best Physicians in Chicago and elsewhere without any benefit whatever. As a last resort I tried Dr. Kilmer's Swamp-Root, and before I had used the third bottle I realized that I was gaining in every way. The use of Swamp-Root has made a marvelous cure in my case. Now I enjoy every thing that I eat, and can go to bed and get a good night's sleep. Anyone doubting this statement may write Dr. Kilmer, and I will gladly answer."

On The State Grange Report.

In the last week's issue of the *Ohio Farmer* the editor of that popular paper makes the following remarks on the report:

"The report of the secretary of the Ohio State Grange is brimful of suggestion. He believes that man is the greatest enemy of man. Referring to the disastrous record of the year in the business world, he says that man, allowing himself to be diverted from the good old rules of common honesty, has endeavored to accumulate wealth by means not creditable to good sense or business sagacity. He has gambled in futures; adulterated his products; speculated in boom towns; bet on horse races and the election; tinkered with silver; legislated for corporations and combines; bought blooded stock at fabulous prices; started stock farms innumerable, and, running his hand over the town map of the universe, he has sought the world on one, two and three years' time and put his hope of immortality as collateral security. Pretty strong language, but true as gospel. The secretary says that the chief cause of all our trouble has been gambling, speculation, inflation, watering, deception, idleness and lying."
